## « Kara Collector's Edition 2010 » art book.

WEDNESDAY, 08 DECEMBER 2010 03:44

An art book, which Valentine Lecêtre, the organiser of Kara, holds close to her heart, has been put together over the past few months. For several years already, Valentine has worked on making both the public and professionals understand the important contribution of independent jewelers to the world of art and design. She wanted this book to be published in 2010, in order to celebrate the first decade of the third millennium, which has seen so many changes and innovations in the world of jewelry. She also wanted it to pay tribute to designers whose work and techniques she admired, whether or not she knew them personally. This art book represents a bid to make them into artists in their own right!

Sandrine Merle wrote the first part of Kara Collector's Edition 2010. She is a fashion and jewelry journalist who writes for the Les Echos' Série Limitée, among others, and her expertise and signature are unanimously recognised among her peers. Through events and designs, she retraces a precise, factual and passionate portrait, through the years, of this crucial decade in the evolution of jewelry.

In the second part, the book presents an anthology of design as seen through Kara's eyes! It contains portraits of around one hundred French and foreign designers, both famous and unknown, young and experienced, but all blessed with a lot of talent!
